

CB-MONSTER-2026-0001 - Monster Bundle Load Pack

Page 1 of 300 - Robbery - long extract bundle stress

PACK / LOAD NOTICE

FICTIONAL CASEBRAIN MONSTER BUNDLE LOAD PACK. Not a real case. No real people, police material, addresses or phone numbers.

Case reference: CB-MONSTER-2026-0001

Case title: Robbery - long extract bundle stress

Defendant(s): Arden Vale

Stage: PTPH

Bundle type: monster load stress, 300 actual pages. Main issue: 300-page partial long bundle extract

Key pages: charge p2; MG5 p5; duplicate MG5 p37; MG6 p88; CCTV extract p201; interview p260

Gold answers are in separate .txt files only and are not included inside this PDF.

CB-MONSTER-2026-0001 - Monster Bundle Load Pack

Page 2 of 300 - Robbery - long extract bundle stress

CHARGE / ALLEGATION

Offence: Robbery

Exact allegation wording: On 02/06/2026 at Station Lane, Arden Vale is alleged to have stolen a phone from Marlow Reed and immediately before doing so used force.

The prosecution must prove the offence as charged. For any unusual or specialist issue, solicitor review is required.

BURIED KEY EXTRACT

This is a buried relevant page for CB-MONSTER-2026-0001.

Main chaos issue: long-bundle-load; partial extract only; duplicate MG5 pages

Disclosure issue: full bundle pages 88-94 and 201-206, full CCTV master, continuity statement, complete signed MG11.

Safe move: chase missing material and do not overstate provisional strategy. Missing source pages and full CCTV create disclosure pressure; do not treat this as full-bundle review.

Exhibits: EX-MON-MG5-01; EX-MON-MG6-01; EX-MON-INT-01; EX-MON-CCTV-01; EX-MON-MG11-01

CB-MONSTER-2026-0001 - Monster Bundle Load Pack

Page 3 of 300 - Robbery - long extract bundle stress

NOISE / LONG BUNDLE PAGE

Noise extract: property receipt wrapper / envelope note / pagination marker. Relevant issue remains long-bundle-load; partial extract only; duplicate MG5 pages.

Safe behaviour: use only the relevant served text and flag source gaps rather than inferring missing content.

CB-MONSTER-2026-0001 - Monster Bundle Load Pack

Page 4 of 300 - Robbery - long extract bundle stress

BUNDLE INDEX / LOAD STRESS

Bundle index states pages 1-300.

This test file contains actual pages 1-300 but many pages are noise, duplicated wrappers, old extracts or irrelevant pagination pages.

Important case material is buried at: charge p2; MG5 p5; duplicate MG5 p37; MG6 p88; CCTV extract p201; interview p260.

Correct behaviour is to find charge/MG6/interview/exhibits, flag missing material, and not pretend every referenced source is safely served.

CB-MONSTER-2026-0001 - Monster Bundle Load Pack

Page 5 of 300 - Robbery - long extract bundle stress

MG5 SUMMARY

Crown narrative: On 02/06/2026 at Station Lane, Arden Vale is alleged to have stolen a phone from Marlow Reed and immediately before doing so used force.

The Crown relies on the listed exhibits, but this monster bundle deliberately mixes important documents with noisy, duplicated or incomplete material.

File-chaos note: long-bundle-load; partial extract only; duplicate MG5 pages

Strategy must remain provisional where source documents, clean scans, continuity or latest disclosure are missing.

BURIED KEY EXTRACT

This is a buried relevant page for CB-MONSTER-2026-0001.

Main chaos issue: long-bundle-load; partial extract only; duplicate MG5 pages

Disclosure issue: full bundle pages 88-94 and 201-206, full CCTV master, continuity statement, complete signed MG11.

Safe move: chase missing material and do not overstate provisional strategy. Missing source pages and full CCTV create disclosure pressure; do not treat this as full-bundle review.

Exhibits: EX-MON-MG5-01; EX-MON-MG6-01; EX-MON-INT-01; EX-MON-CCTV-01; EX-MON-MG11-01

NOISE / LONG BUNDLE PAGE

Duplicate pagination marker. This page is included to test long-bundle extraction and not to add new case facts.

Safe behaviour: use only the relevant served text and flag source gaps rather than inferring missing content.

CB-MONSTER-2026-0001 - Monster Bundle Load Pack

Page 7 of 300 - Robbery - long extract bundle stress

NOISE / LONG BUNDLE PAGE

Fictional solicitor test corpus page 7. Do not treat absent pages as served.

Safe behaviour: use only the relevant served text and flag source gaps rather than inferring missing content.

CB-MONSTER-2026-0001 - Monster Bundle Load Pack

Page 8 of 300 - Robbery - long extract bundle stress

MG6 / DISCLOSURE POSITION

Served according to MG6 extract: MG5 extract, MG6 extract, partial CCTV stills, one MG11 extract, custody/interview summary.

Outstanding / incomplete: full bundle pages 88-94 and 201-206, full CCTV master, continuity statement, complete signed MG11.

Do not treat unserved source data as proved. Chase the full source material and latest disclosure position before final advice.

CB-MONSTER-2026-0001 - Monster Bundle Load Pack

Page 9 of 300 - Robbery - long extract bundle stress

NOISE / LONG BUNDLE PAGE

Old bundle header repeats case reference CB-MONSTER-2026-0001 but does not update disclosure position.

Safe behaviour: use only the relevant served text and flag source gaps rather than inferring missing content.

INTERVIEW / CLIENT ACCOUNT

No comment after limited disclosure. Defence later records that identification and force are disputed.

Client account is a working instruction only. Where it conflicts with papers, record the conflict and take further instructions.

NOISE / LONG BUNDLE PAGE

Duplicate pagination marker. This page is included to test long-bundle extraction and not to add new case facts.

Safe behaviour: use only the relevant served text and flag source gaps rather than inferring missing content.

CB-MONSTER-2026-0001 - Monster Bundle Load Pack

Page 12 of 300 - Robbery - long extract bundle stress

EXHIBIT LIST

EX-MON-MG5-01; EX-MON-MG6-01; EX-MON-INT-01; EX-MON-CCTV-01; EX-MON-MG11-01

All exhibit codes above are fictional EX-MON-* codes for CaseBrain evaluation only.

NOISE / LONG BUNDLE PAGE

Noise extract: property receipt wrapper / envelope note / pagination marker. Relevant issue remains long-bundle-load; partial extract only; duplicate MG5 pages.

Safe behaviour: use only the relevant served text and flag source gaps rather than inferring missing content.

STRATEGY SAFETY NOTE

This may assist the defence because: Missing source pages and full CCTV create disclosure pressure; do not treat this as full-bundle review.

This may assist the Crown if served source material cures the gap or clearly supports the allegation.

This creates pressure if proved because the solicitor can ask for missing pages/source files/continuity and record prejudice from incomplete service.

This point collapses if: point collapses if full CCTV/source pages clearly support Crown identification and force.

Do not treat the strategy as final until source material and instructions are reviewed by a solicitor.

Page 88 of 300 - Robbery - long extract bundle stress

BURIED KEY EXTRACT

This is a buried relevant page for CB-MONSTER-2026-0001.

Main chaos issue: long-bundle-load; partial extract only; duplicate MG5 pages

Disclosure issue: full bundle pages 88-94 and 201-206, full CCTV master, continuity statement, complete signed MG11.

Safe move: chase missing material and do not overstate provisional strategy. Missing source pages and full CCTV create disclosure pressure; do not treat this as full-bundle review.

Exhibits: EX-MON-MG5-01; EX-MON-MG6-01; EX-MON-INT-01; EX-MON-CCTV-01; EX-MON-MG11-01
